

Please Don't Go

To know you'll be gone for so long darkens my day
Why Does it have to be so fare
Now I'm playing this song busrting with yen
All I'm wearing is this small guitar

No...no
Please don't please don't go
Oh no....no
Please don't please don't go

The wonder that`s making my day is when I can see you smile
Don't take this sun away from me
What can I possibly do so you keep in mind
How much I yearn to have you near

No...no
Please don't please don't go
Oh no....no
Please don't please don't go

ooooohhh I wanna make you stay
ooooohhh I wanna make you stay
ooooohhh I wanna make you stay
But what does it take to make you stay

No...no
Please don't please don't go
Oh no....no
Please don't please don't go
No...no
Please don't please don't go
Oh no....no
Please don't please don't go
