

# Undone 2013

Bring your lesson to make all this greed fade away  
Make it weak make it go we don't want it to stay  
Feed our hearts with sympathy, faith and love  
Let's find a way out of hatred and pain because

**If our love is on the run  
There is nothing to become  
We're undone  
Put everything aside  
There is nothing left to hide  
Undone**

Bring your unsophisticated mind  
'Cause all we need is that pure ray of light  
It's all about light

**If our love is on the run  
There is nothing to become  
We're undone  
Put everything aside  
There is nothing left to hide  
Undone**

**If our love is on the run  
There is nothing to become  
We're undone  
Put everything aside  
There is nothing left to hide  
Undone**

What ever you call god it wont change a thing  
It is what we do that means everything

...

What ever you call god it wont change a thing  
It is what we do and what we sing
